Facts

Sometimes it needs time to uncover a treasure. The German Prog/US-Metal band No Inner Limits is a good example for that.

No Inner Limits was founded in 1992, they released three great albums on their own (BALANCE, 1995; THE PLANET'S PULSE, 1997 and THE PHOENIX IS RISING, 2009) and they played countless gigs. But they stayed in the underground.

Now it's time to make a big step forward and show the fans what they have missed so far: Great Prog/US-Metal in terms of Fates Warning, Sanctuary or early Savatage.

OF YESTERYEAR features a section of the three albums. The songs were remixed and remastered by Sven Bonse (Reamonn, Such A Surge, Silly) in his Melting Point Studios. The cover artwork was done by Sebastian Lipper (FLMC Brand ID).
