Facts

25 Years Macbeth! The legendary metal-band celebrates their comeback with their very first DVD. FROM HELL was recorded in December 2010 in their hometown Erfurt in front of an overwhelmed crowd.

Macbeth was founded in 1985 and after a two year struggle with the DDR regime, the band had to disband under the pressure. The members then founded the group „Caiman“, which also broke up after two years because their lead singer Wittenberg committed suicide in a forest near Erfurt.

In 1993 a comeback under the old name was attempted, but after a few gigs the former drummer jumped from a rooftop into death. The band broke up again.

Then in 2003 the train starts rolling again. Macbeth returns with old and new material to hit the streets. The interest within the scene was immense. Two full length records and countless live shows later the first quarter century of the band-history was finished.

FROM HELL is divided into three parts: The first chapter is devoted to the „old times“ from 1985 to 1987. Classics such as „Bomber“, „Zeit der Zeiten“ and „Death Under Moonlight“ can be found there. The chapter „Neuzeit“ represents the new era with songs like „Golgatha“ and „Abendmahl“. The final chapter „In Gedenken“ is devoted to the members that passed away.

FROM HELL was produced by Patrick W. Engel (Heaven Shall Burn among others)

This DVD is a piece of living Metal-History. If you`re into Metal, there is simply no way around it. Raw, honest, Macbeth!
